 NEWS AND VIEWS FROM AROUND THE STORES

**Happy New Year
from Our COLE
HARDWARE Family
to Yours!**

The year 2014 was an exciting one in the world of COLE HARDWARE. Our stores are serving more and more people every day. We continue to add more and more services that we hope make your life easier and more productive. We've added thousands of new products to our already bursting-from-the-seams shelves, doing whatever it takes to make your shopping trips eclectically fun and satisfying.

And our staff. I am totally in awe of their dedication, tireless efforts on your behalf, professional and friendly do-whatever-it-takes attitude, and general *esprit de corps*. They are totally fun to work with! I am humbled and proud of what they do for one another, for you, and for spreading the gospel of COLE HARDWARE. Our staff is our brand. They walk what I talk. Every day they execute our internal mission statement: Do whatever it takes to create positive

**New for 2015: COLE HARDWARE Rewards
Simple. Finally.**

As far as retailers go, we were a pioneer back in the mid-80s when we began our Frequent Shoppers Club. American Airlines had introduced their frequent flier's club. REI began year-end rebates to its members. And I had an epiphany: Why couldn't COLE HARDWARE combine the best of both and create our own Frequent Shoppers Club? That's just what we did. It was nothing fancy. It was simple, and it was rewarding. Then, many years later, we acquired some fancy and sophisticated software that manages loyalty clubs. It is pretty cool, actually. But say good-bye to simple and hello to complex.

We heard you loud and clear that our program was confusing. In fact, a lot of our staff were confused as well. A few months ago, we set out to reinvent simple with one guiding principle: Everybody should understand the benefits and the way the Rewards Program works in 30 seconds or less.

**Four easy bullets
to read and
understand in less
than 30 seconds:**

- Rewards points are calculated daily and shown on your receipt.
- For every dollar spent, one point is earned. Points are converted to a dollar value on your Rewards card at the end of each calendar quarter, and never expire. Yes, I said *never*.
- Points are converted in \$5 increments for every 100 points earned. Yes, that equates to a 5% reward.
- Rewards dollars are valid for three months. Four times a year, we'll send you a postcard, e-mail announcements, and more to remind you to use your Rewards dollars.

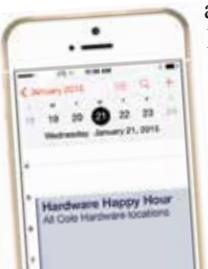

Simple enough?

Community Connections: Advertise with Us!

The *Hardware Hotline* offers small businesses and independently employed entrepreneurs the opportunity to advertise on our Community Connections page. For just \$25 a month and a six-month commitment, we will advertise your business with a listing up to 50 words. You can also run a 2-inch x 3-inch display ad for \$35 a month. Submit your ad, or request more information, by e-mailing service@colehardware.com. (See page 11 for current ads.)

Rent-A-Tote Program

As an alternative to scrounging up or buying boxes for your next move, COLE HARDWARE has a Rent-A-Tote program. The totes we have available for rental are a generous 27"L x 17"W x 12"H—the perfect size to pack with your things without becoming too heavy to comfortably carry. They are the same type of totes that we fill to the brim and toss into our vans for our inter-store transfers of merchandise. So we can tell you from lots of experience in our warehouses that they are much

dinnertime conversation. In 2015, you will meet many of them in these pages as we celebrate their successes.

We've been on a hiring binge of late, adding about 25 brand-new positions in 2014. You'll see some new faces in our City stores, but most of our new team members came aboard for our newest location across the Bay, in Oakland's Rockridge neighborhood. We open our doors softly on January 2, with grand opening festivities to follow February 21 through March 1, after we get the kinks out. Opening a new store from the ground up is a huge project with hundreds of moving parts. Our management team, spearheaded by my son, David, as project manager, has added an "eighth day" to their already-heavy workweek to make this happen. Our first venture out of the City will be an exciting addition to the vibrant Rockridge neighborhood. This will be our largest store, and we want everyone to come for a visit. The store is steps away from the Rockridge BART station. We have a very special coupon for you to use at our new location. Pick it up in any of our stores, hop on BART, check out our new digs, and spend the afternoon or evening exploring the great Rockridge neighborhood. Hope to see you there!

Adrianna and David, my kids, celebrated their first full year in the business, thus beginning their careers as the third generation of Karpis at the helm of COLE HARDWARE. My dad, Dave, is doing well. I still bring him around the stores to say hello. Please stop and say hi if you see him. We expect to have a grand celebration of his 99th birthday at all of our locations in June! How lucky I am to be sandwiched between David and Adrianna, and my dad. It is a sweet new year!

If I may be of personal service to you, say hello at rick@colehardware.com, or call me at any of the stores. You'll be put right through to my cell phone. I look forward to visiting with you throughout 2015. I wish you, your family, and your friends a happy New Year.

Call Us for All Your Repair Needs!

Back when Dave and Marge Karp bought our flagship Cole Street store in the early 1960s, Marge would often run the store while Dave went to homes and businesses around San Francisco to make repairs. Now that Dave is semiretired (he still serves as our figurehead and visits the stores on occasion), and since he turned 98 last year, he's not able to get around to those repair visits as he used to. In order to provide our customers with the very best in home and business repair, maintenance, and remodeling, we have formed alliances with local contractors and tradespeople in San Francisco and now in the Rockridge and surrounding neighborhood.

Larry, who oversees our Repair Referral Service, refers our customers to these independent businesspeople and monitors their work to ensure the quality and reliability of our Repair Referral Service partners. All tradespeople in our service are fully vetted: background checks are performed and references are thoroughly checked. This year marks the 23rd anniversary of Re-COLE-mend—as our Repair Referral Service is known—connecting thousands of people every year with one or more of the great folks in our stable of extremely qualified and well-mannered “ambassadors” for COLE HARDWARE, all guaranteeing that their work will be to your satisfaction.

We now have over 100 trade partners dedicated to solving the needs of your home and business in a timely manner. From hanging a curtain rod to remodeling a kitchen, and everything in between, we can refer you to 24/7 locksmiths, plumbers, electricians, painters, plasterers, furniture refinishers, roofers, and much more (see the complete listing above or at www.colehardware.com/referral.htm).

Larry will help you find the right tradesperson for your home improvement projects.

WHAT'S COOKING IN THE NEW YEAR?

Secret Weapon for Healthy Eating: Cuisinart® Smart Stick® Hand Blenders

January after January, how many of us find ourselves making the same New Year's resolution to eat a healthier diet and get fit? The reasons we fall off the wagon instead of sticking to these goals throughout the year are complex, and of course there is no one method or true "secret weapon" that is guaranteed to work for each of us. However, a Smart Stick is a surprisingly effective tool for helping you stick to your healthy eating goals. The magic of the hand blender, also called an immersion blender, lies in its ability to create a creamy or whipped texture that makes healthy foods seem more decadent in literal seconds. The extra payoff is that cleanup with the Smart Stick is a cinch, so even when you are short on time or motivation to cook, a healthy meal is within your reach. We at COLE HARDWARE are far from dieting gurus, but we are all for making healthy eating fun and accessible. We can guarantee that adding a Cuisinart Smart Stick to your kitchen

arsenal and incorporating it into your cooking routine for healthful soups and smoothies will allow you include more healthy ingredients in your diet—and have fun while doing it! The possibilities are endless, but here are some ideas to get your wheels turning. Cuisinart Smart Stick hand blenders are available this month in beautiful gem-inspired tones: choose Onyx or Garnet. (Sku 606400, 606401, \$39.99)

INDIAN SPICED LENTIL SOUP

Ingredients

- 1½ cups whole black or green lentils
- 1-inch piece fresh ginger, peeled and thinly sliced, plus 2 tablespoons minced ginger
- 3 tablespoons unsalted butter, divided (or you may substitute olive oil)
- 1 large onion, finely diced
- 3 cloves garlic, minced
- 2 teaspoons salt, extra to taste
- Pepper, to taste
- 1 medium carrot, diced
- 1 Yukon gold potato, diced
- ½ teaspoon ground coriander
- 1 teaspoon cumin
- ½ teaspoon cayenne pepper
- ¼ teaspoon garam masala
- ½ teaspoon smoked paprika
- 2 quarts chicken or vegetable stock
- 1 cup canned crushed tomatoes

Directions

1. Pour lentils and slices of ginger (reserve minced ginger for later) into a large pot and cover with 1 inch of water. Bring to a boil and cook over medium-high heat for about 10 minutes. Drain the lentils and transfer them to a bowl, discarding the pieces of ginger.
2. Heat 2 tablespoons of the butter or olive oil in the pot over medium heat. Add onion, garlic, and minced ginger. Season with salt and pepper and cook until fragrant, about 5 minutes, stirring occasionally. Add potato and carrot to pot and cook, stirring occasionally, until they just begin to soften, about 10 minutes. Reduce heat to low and stir in all spices. Let cook until fragrant, about 4 minutes.
3. Add the stock, tomatoes, and partially cooked lentils to the pot and bring to a boil over high heat. Reduce to a simmer and cook until the lentils are softened and the soup has thickened, about an hour.
4. With your Smart Stick or other immersion blender, blend the soup in quick pulses to your liking. The idea is to have toothsome bites of chewy lentils and vegetables remain, in a creamier, thickened base.
5. Bring back to a simmer, season with salt to taste, and stir in the remaining tablespoon of butter or olive oil. Ladle into bowls for serving.

TROPICAL GREEN SMOOTHIE

Ingredients

- 1½ cups milk or coconut milk
- ½ frozen banana, cut into chunks
- 2 kale leaves, deribbed
- ½ cup frozen or fresh pineapple chunks
- 1 tablespoon goji berries
- 1 scoop rice protein powder (optional)
- Sprinkle of cinnamon

Directions

Throw all ingredients into a widemouthed cup. Let sit for just a minute to allow the milk to soften the frozen banana chunks to prolong the life of your immersion blender's blades. Blend until creamy, about 10 seconds. Wash off the head of your blender—about another 10 seconds—and head out the door to take on the day with your healthy metabolism kick starter in hand!

Easy Slow-Cooker Pork Roast

In many cultures, pigs symbolize progress and prosperity, and eating pork is considered to be good luck for the coming year. My Polish grandmothers cooked a pork roast and sauerkraut for New Year's every year, and my mom and aunts continue the tradition to this day. When I cook a roast in the oven, it tends to come out too tough, so here's a simple, foolproof modification of my Grandma's recipe for a tender, melt-in-your-mouth roast. You can pop it into a slow

cooker on New Year's Eve and have for dinner on New Year's Day. We stock a 4-quart slow cooker that can be used for a multitude of simple meals. (Sku 6174205, \$34.99)

—Julia

GRANDMA HENRIETTA'S POLISH PORK & SAUERKRAUT

Ingredients

- 1 pork roast*
- 1 medium to large onion, chopped
- 1 pound sliced mushrooms
- 2 (1-pound) jars sauerkraut
- 1 can beer
- 1 packet dry onion soup mix
- Minced garlic, to taste
- Pepper, to taste

* Choose roast size according to size of your slow cooker

Directions

Brown the roast on all sides in a sauté pan or cast iron skillet. Put all ingredients into a slow cooker and cook on low for 8 hours or overnight. The pork will be tender and fall apart. Serve over mashed potatoes.

In the Garden January Garden Tasks

Tips from Dennis and Bill

Stop by our Cole Street garden center for all your gardening needs. The advice is free from the Garden Guys, Dennis and Bill. E-mail them with any questions: dennis@colehardware.com or blitz@colehardware.com.

January is a popular time for self-reflection, looking ahead, and planning for positive changes in the year to come. There is no reason your garden can't benefit from this forward thinking and planning as well. By now, and throughout the winter, many of the plants in the garden are at a time of rest and dormancy. Gardening tasks this month focus on maintenance and helping your garden stay in top form to start spring off with a bang!

Meanwhile, take this time to cozy up indoors and brainstorm ideas for what you would like to see your garden bring in the year to come.

✓ If a living Christmas tree graced your home last month, now is the time to move it outdoors if you haven't already done so. Place the tree in a tub of water and let it sit until the air bubbles stop rising to the surface so that you know the soil is well soaked. Keep well watered in its pot or plant it in the ground in a place with lots of room to grow!

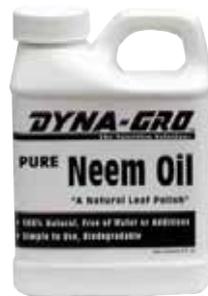

✓ Winter is the best time to prune to ensure vigorous spring growth. With appropriate pruning techniques, you can minimize pest and disease problems, promote fruiting and flowering, and encourage healthy, productive plants. Different plants have different growth habits, which will in part dictate the pruning strategy you should apply. If you aren't sure, come in to our garden centers with pictures for advice. A good rule of thumb is to remove no more than 25% of live growth. Prune from the bottom up, and interior to exterior, making cuts at a 45-degree angle just above a swelling bud. Remove twiggy growth, weak shoots of growth, and deadwood with bypass pruners. (Sku 7131022, \$16.99)

✓ Pull winter weeds as soon as you notice them emerging so that they don't have time to establish strong root systems. Bulb-forming weeds such as oxalis and nut sedge should be dug out. After weeding, prolong the effect of your work by applying a 2-inch layer of mulch to suppress new weeds from growing and to protect plant roots. Keep mulch at least 1 inch away from tree trunks and plant stems.

✓ Dormant spraying should be done in two or three doses per year, the first one being now, to smother overwintering insect eggs, mites, and soft-bodied insects. Neem oil is a good choice. (Sku 746103, \$14.99)

✓ Wild birds are one of the best natural means of keeping detrimental insects under control, not to mention the liveliness and music they bring to the garden. What better time to show our feathered friends a little extra love than the chilly, dormant month of January. Set out suet or birdseed now and replenish it consistently throughout the year to make your yard a regular stop for wild birds that spend much of their time and energy looking for food. Birds will feel more secure visiting your feeder if it is placed near trees or shrubs that offer them protection and a place to hide from predators. Also, do them a favor by putting a bell on outdoor cats. Hi-Energy Suet (Sku 80795, \$1.99) and 5-pound Kaytee Wild Bird Food (Sku 80264, \$7.49) are popular choices to attract many different types of birds year-round.

✓ Fireplace ashes are great for fertilizing alkaline-loving plants such as irises. Should you happen to have both a wood-burning fireplace and alkaline-loving plants, reserve the ashes for use in the garden.

✓ As indoor heating dries out the air in our homes, pay extra attention to houseplants for signs of distress. Most will need a bit of extra watering and misting. Special fertilizer such as Eleanor's VF-11 formula (Sku 7168065, \$6.99) can also be mixed into the water.

✓ While most fruiting plants lie dormant, dwarf citrus trees do very well in January. Dwarf citrus trees are just as happy in a container as they are in the ground, making them a great choice for those with limited space for gardens. Check our garden centers to see the variety of citrus trees that are available this year.

See you in the garden!

See you in the garden!

Outdoor Water Restrictions

While we hope January will be a wet, rainy month, our past few years of inadequate rainfall have left us playing catch-up to fill our water

Don't water your sidewalk!

reservoirs. The state of California has mandated a 10% reduction in the use of potable water for outdoor irrigation of ornamental landscape and turf.

The following outdoor water uses are also restricted and may be subject to fines:

- Washing driveways and sidewalks with water, except for health and safety purposes. Save water and use a broom.
- Watering outdoor landscapes in a manner that causes runoff to sidewalks, streets, and hardscapes. Adjust irrigation and only water twice a week.
- Using drinking water in nonrecirculating fountains or decorative water devices.
- Using a hose without a shut-off nozzle, for any purpose.

WHAT'S IN SEASON

Enjoy Your Fireplace!

Winter is here, and along with colder temperatures, home heating costs have soared in recent years. Nothing is cozier than curling up next to a warm, crackling fire in a fireplace on a chilly Bay Area evening. Besides adding ambience, a fireplace can heat your home, allowing you to forego turning on the furnace or plugging in space heaters.

Clean, dry, well-seasoned hardwoods, such as oak and maple, are the best woods to burn, as they produce less smoke and provide more heat energy than softer woods. The density of hardwoods also allows them to burn more slowly and evenly. Proper care and maintenance will allow you to enjoy the benefits of using your fireplace, not only safely, but also economically.

Creosote Sweeping Log®

Each time a wood fire is burned, tar and creosote are formed.

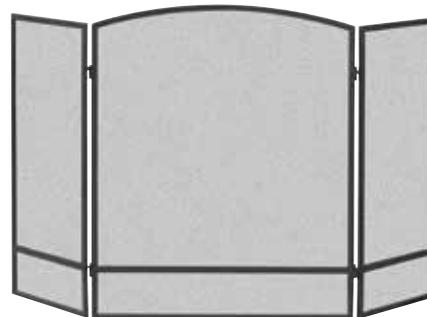

Creosote is unburned wood particles and condensed flue gases. With each fire, these highly flammable substances build up on the inside of the chimney and must be removed to prevent a fire. The Creosote Sweeping Log contains a mixture of minerals that are dispersed during burning to coat and adhere to the creosote. Over a period of 14 days after burning the Creosote

Sweeping Log, the creosote becomes brittle and breaks away. The patented Creosote Sweeping Log is an alternative to mechanical cleaning and is one of the fastest, easiest, and most cost-efficient ways to clean your chimney. (Sku 4192415, \$16.99)

Java-Log®

A cleaner and more earth-friendly alternative to wood is the Jav-Log, made from recycled coffee grounds. A Java Log produces 80% less carbon monoxide, creosote deposits, and particle matter than a wood-burning fire. Besides burning brighter, Java-Logs have 25% more energy than wood. Chimney Service

COLE HARDWARE is pleased to have a full-service chimney sweep included in our Repair Referral Service. Since 1978, Hugh and Lisa have been proudly serving homeowners, contractors, and realtors for chimney and fireplace needs. They service wood- and gas-burning fireplaces, inserts, and stoves. Their technicians can troubleshoot all fireplace problems, and a visual inspection and report is provided with every sweep. Services include:

- Chimney cleaning
- Flue cleaning
- Flue camera scanning
- Chimney repairs and remodels
- Chimney maintenance
- Real estate inspections
- Sales
- Installation

If your chimney is in need of a sweeping, call our Repair Referral Service at 415/753-2653 ext. 3, or e-mail homerepair@colehardware.com. We'll put you in touch with Hugh, Lisa, and their team.

Winter Spare the Air

In addition to Spare the Air days, the Bay Area Quality Management District will issue between 15 and 20 winter Spare the Air alerts through February 28. It is illegal to use a fireplace or wood and pellet stoves on these days. The first violation is a warning, and the subsequent violation is subject to a whopping \$500 fine. In the wintertime, particulate matter—especially particulate matter 2.5 microns or smaller in size, also known as PM2.5—can become a serious problem in the region. While auto emissions are the biggest contributor of particulate matter in summer months, wood smoke is the largest pollution contributor in

winter months. Visit www.sparetheair.org to see if a Spare the Air alert is in place. You may also sign up for e-mail alerts on the website.

HydraBarrier™ The Eco-Friendly Sandbag Alternative

With winter rain comes the possibility of flooding. If you have the unfortunate experience of water flooding under doors or into basements this winter, keep the unique HydraBarrier in mind. HydraBarrier water tubes are an eco-friendly, reusable sandbag alternative that diverts and contains water to prevent damage in your home. They are very durable, made of industrial-strength 22-mil vinyl. When needed, the HydraBarrier is easily filled with water to create a barrier that will divert up to 4 inches of water, providing protection equal to four sandbags! Each HydraBarrier tube is 6-feet long and can be molded to fit around corners or in doorways. Perhaps the most appealing features of the HydraBarrier are its ability to be

- Easy to fill
- Easy to empty
- Folds flat for storage
- Reusable
- Eco-friendly
- Durable

folded flat for storage and its low cost compared to sandbags. (Sku 5466321, \$16.99)

WHAT WILL YOU RESOLVE IN 2015?

Welcome to 2015!

The New Year is an opportunity for a fresh start. New Year's resolutions are easy to make, but also easy to break. Here are a few New Year's resolutions that are simple to undertake to start the year off on the right foot.

Keep It Clean with Caldrea®

Cleaning your home no longer needs to be an unpleasant task with harsh cleaners full of toxic chemicals. All COLE HARDWARE locations are introducing the aromatic, sensual scents of the Caldrea line in dish soap, hand soap, countertop spray, laundry detergent, and candles. Caldrea uses potent ingredients that are effective, safe, and gentle all at once. The packaging of these products is so beautiful, you'll want to give it as a gift, as well as be inspired to clean. (\$9.99–\$19.99) You'll find these pleasing scents at our stores:

Ginger Pomelo: A day stretched out into a wide grin, warmed by the sun, glowing citrus is emboldened by ginger, basil, and sweet peony. Brighten a counter, a mood, or a Monday.

Sea Salt Neroli: Boards washed by the sun, this seashore of a scent sends citrus and juniper aloft on breezes of minerals, florals, and the clean musk of summer dances.

Lavender Pine: Lavender and pine have kept homes pristine not for mere centuries but for actual millennia. Today, cedarwood, eucalyptus, and orange add elegance to the efficacy.

Mandarin Vetiver: This is sunshine sharply sectioned and freshly squeezed. The invigoration of citrus finds its zest with vetiver green.

Basil Blue Sage: A sprig of spring, refined yet relaxed, this bouquet tidies your affairs with the effortless Provençal chic of its namesakes, plus rosemary, spearmint, and cinnamon leaf.

Paint a Room

For a new outlook, painting can transform a room, and you get a lot of bang for your buck. For the cost of a can of paint and supplies, a room can easily be converted to a more inviting space. Monochromatic colors can create a graceful flow from room to room. Try warm, cool, dark, and light layers of the same hue. Benjamin Moore's Guilford Green (HC-116), their 2015 color of the year, is the color that can tie this all together. A neutral color, it is a silvery green that works with a wide range of color combinations—from neutrals to daring shades.

Drink More Water

Staying hydrated is vital for good health. Our stores offer the fun Klean Kanteen bottles in a 18-ounce and 27-ounce size. They're also handy to take to the gym or on a walk, for that "exercise more" New Year's resolution that you might have made this year. Assorted colors. ENVIRONMENTAL INFO

GOOD FOR THE EARTH—WE TAKE ACTION FOR THE ENVIRONMENT!

Wait . . . Don't Flush That!

It is something that can be found in every home, school, and office building. It has been called an outhouse, a Porta Potty, and the loo. But regardless of what you call it, it serves the same purpose. It is a toilet, and it has seen it all.

One thing that does not belong in our toilets is trash. Large items such as plastic bags or diapers obviously should not be flushed (although, they do show up at our wastewater treatment plants). But even smaller items like baby wipes, pharmaceuticals, and dental floss should never be flushed down the toilet.

If you are wondering what *can* be flushed down the toilet, here's the deal: human waste, toilet paper, and paper toilet seat covers are the only things that should be flushed. Everything else should be properly discarded.

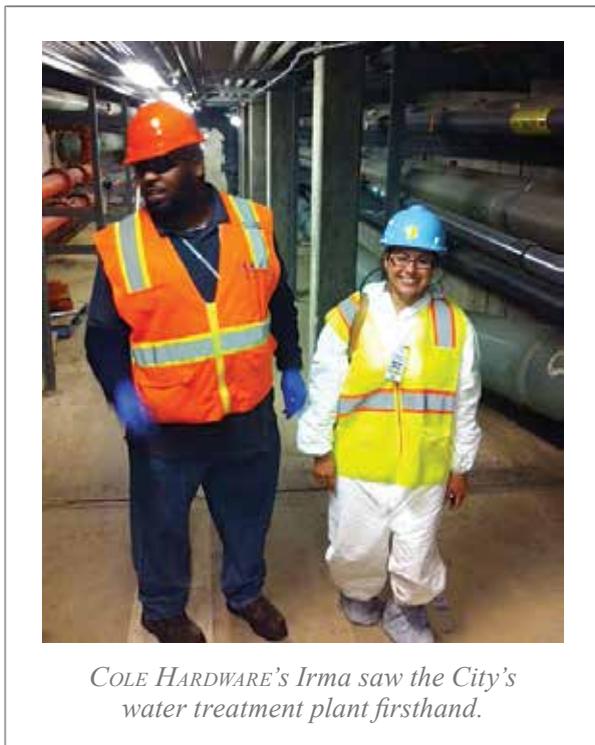

But what about those products that say they are "flushable," you might ask. Don't be fooled by these claims! Just because you can physically flush them does not mean that they won't get clogged downstream in sewer pipes and cause a backup in the sewer system. Those items should be thrown in the black garbage bin. By maintaining these practices, we can reduce the amount of trash that clogs our sewer pipes and avoid preventable backups that are costly, unpleasant, and odorous.

Trash such as facial wipes, bandages, and feminine hygiene products get stuck in our treatment plants' machinery. If we all take steps to prevent those products from entering our sewer system, we can help our treatment plants work more efficiently and spend more time treating water than removing unnecessary waste.

The City has two treatment plants and a wet weather facility. For a free tour of our wastewater treatment plants, visit sfwater.org/tour. Tours are offered on the second and fourth Saturday of each month for San Francisco residents.

Whether you're at home, at work, or at a friend's house, please remember that besides human waste, only toilet paper and paper toilet seat covers should be flushed.

COLE HARDWARE's Irma saw the City's water treatment plant firsthand.

Bagito Reusable Shopping Bags

Always forgetting your shopping bags? Made from 100% post-consumer recycled plastics, Bagito full-sized reusable shopping bags easily attach to a key ring or backpack to be conveniently ready to use when needed. The bags fold into their attached pouch, so they can be stashed in a desk drawer or glove compartment. Bagito was created to fund environmental literacy for K-12 students: 100% of net proceeds are donated to Power2Sustain, a nonprofit whose mission is to teach the next generation to value and sustain their natural world. Available in assorted colors. (Sku 926899, \$4.99)

Bring Your Spent Fluorescent Bulbs to COLE HARDWARE for Recycling!

We can take tubes up to 8 feet, CFLs, U- and D-shaped tubes.

Website: Visit www.colehardware.com.

Windows, Doors, and Window Screens: Window and screen repairs are available at our Cole Street and Mission Street stores. Contact these stores for information and pricing.

By the way, we sell hardware, too.

Spare Change Collection

We're excited to report that our spare change collection is approaching the \$25,000 milestone—all from our shoppers dropping their coins into the change jars at our registers. Our November collection raised \$762.72 for

Groceries for Seniors, a local organization that distributes food to approximately 1,000 seniors every week, bringing our grand total since our program started to \$24,374.56. December's collection is earmarked for Women Organized to Make Abuse Nonexistent, Inc.

(W.O.M.A.N., Inc), a community-based, multiservice agency serving survivors of domestic violence, specifically for their displaced pet program. Will we be able to reach the \$25,000 mark? Stay tuned!

For January, our San Francisco stores will collect spare change for The Family Link, a nonprofit guesthouse that serves people with a life-threatening illness or injury by providing hospitality to their visiting family and loved ones. Our Rockridge store will collect funds for Friends

of Rockridge Greenbelt (FROG) Park, an organization raising money for children's play structures at the park. We'll report these numbers in March.

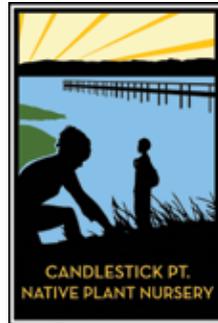

It's easy to donate! Just drop your change in the collection jars at all of our cash registers—or bring in that jar of coins that is collecting dust on your dresser.

Tim with Groceries for Seniors accepts our Spare Change donation of \$762.72.

Local Plants, Local People

Interested in preserving a piece of our local San Francisco community and natural environment? Look for the Candlestick Point Native Plant Nursery (CPNPN) logo when you purchase plants from COLE HARDWARE. CPNPN's plants are not only native to Southeast San Francisco, but produced locally here as well. They strengthen local

ecology, are resilient in the face of climate change, can help you conserve water, and enable you to be a local eco-steward simply through how you build your garden. Native to this region, all species also attract local wildlife including beneficial insects.

In addition, when you purchase a CPNPN plant, you directly support youth workforce development in Bayview/Hunter's Point, as the nursery employs paid youth interns, embedding formative environmental literacy and leadership development opportunities in positive early employment experiences.

Holiday Generosity

COLE HARDWARE wishes to thank our friends and crew members who gave generously to our holiday collections. Our friends at

ARRIBA Green Toys donated over \$2,800 of their most popular toys to our Arriba Juntos toy collection. Our

Adopt-a-Family collection for Women Organized to Make Abuse Nonexistent, Inc. (W.O.M.A.N., Inc.) collected

\$1,260 in cash, toys, and gift cards for two families to enjoy the holidays. Our deepest gratitude to all from the bottom of our hearts!

Thank you, Green Toys for your generous donation!

What Is Candlestick Point Native Plant Nursery?

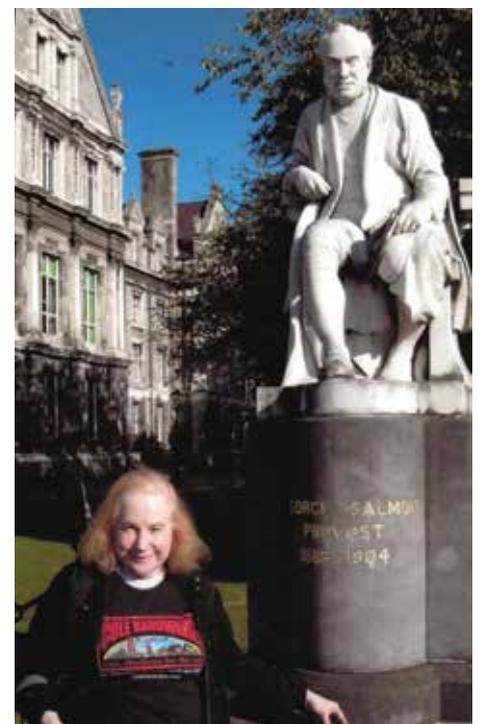

Candlestick Point Native Plant Nursery (CPNPN), a project of Literacy for Environmental Justice, is a local nursery dedicated to preserving the unique biodiversity of San Francisco. By engaging local residents and young adults in growing native plants that can be used by businesses and homeowners to cultivate sustainable native plant habitats, CPNPN is not only committed to ecological sustainability and environmental health, but also to building long-term community stewardship of our local environment.

To learn more about CPNPN visit www.candlestickconnect.org.
