High-Performance Blending Machines

The health benefits of eating less processed, refined foods are well documented. However, preparing whole foods isn't always the easiest or best-tasting choice: owning a Vitamix changes all that forever. With the flip of a switch, create delicious and healthy raw, vegan, or vegetarian meals—easier than you ever imagined.

Much more than just a blender, a Vitamix allows you to whip up smoothies, frozen desserts, hot soups, ice cream, and juices, all with one machine. Grind your coffee beans or make fresh peanut butter with just-roasted peanuts. A precision-crafted blade spins at an impressive 240 miles per hour, and the machine is self-cleaning: simply squirt a drop of dish soap and blend with some water. No unscrewing parts to clean! The metal-to-metal connection between container and base prevents stripping or wear.

American-made since 1920, the Vitamix has a two-piece lid with a removable plug for adding ingredients while in use and lid vents for releasing steam when processing hot ingredients. A cookbook with over 300 recipes and a DVD are included.

The Professional Series 500 features a brushed stainless steel finish and preprogrammed settings. A pulse function allows for cheese grating and tomato chopping—just a few tasks this Vitamix can handle. (Sku 606030, \$599.99) The Professional Series 200 offers variable speed control in a black finish. (Sku 606031, \$449.99)

HIGH-TECH HOLIDAY

Nest Learning Thermostat™

This is the coolest thermostat on the market. After using it for just a week, it programs itself to adapt to your life. Plus, if you have a change in routine, or just don't stick to a routine, it is very easy to use the Nest app on your phone to control the temperature from anywhere! Its smart auto-away program uses built-in sensors to help you save energy by not heating or cooling an empty home, and it will also display a leaf icon when you have selected a temperature that saves energy. (Sku 4666780, \$249.99)

**Programs itself.
Then pays for itself.**

You can program motion and sound alerts, which will give you notifications on your smartphone, so you know when to check in. There is a built-in speaker, so you can talk through the camera. Tell your dog to get off the couch, check in with your kid after school, or in the unlikely event of home invasion, yell at intruders to scare them away! There is no price tag for peace of mind, and this well-designed gadget is the best solution the market has to offer, making it the perfect gift for the safety conscious or the worrier in your life! Simply attach the beacon to anything that is important, and it uses Bluetooth technology to connect with your smartphone to show you where it is on a map—it will even warn you when you are headed out of range! Great for keys, of course, but we had a customer tell us

she uses it to keep track of her wandering cat—genius! (Skus: 369036, 369050, 369051, **HOT DEAL \$15.00** Regular price \$24.99)

With the **August Smart Lock** (Skus 503021–2, \$199.99), you create a unique digital key to share, and you can adjust parameters, allowing temporary or permanent access. The August Lock works with your existing dead-bolt: it installs easily to the dead-

There's also the **August Doorbell Cam** (Sku 503014, 503017, \$199.99), which lets you see who is at the door on your smartphone so you can let them in.

Annual Toy Drive

Through Sunday, December 20

Once again, COLE HARDWARE's San Francisco stores are hosting a toy drive for Arriba Juntos's La Posada celebration. Arriba Juntos, which translates from Spanish to "upward together," is a nonprofit community organization that was founded in 1965 in the Mission District. It works to support thousands of individuals and families across the City who are the most underserved and at risk for prolonged poverty. Our Rockridge location will collect new toys for the popular Toys for Tots program, which provides toys to thousands of children from low-income families.

For your donation, we suggest a toy from Green Toys™, a Bay Area company that makes a unique, fun line of classic children's toys constructed from recycled plastic containers and other environmentally friendly materials. Our partner in the toy drive for the past eight years, Green Toys has donated hundreds of their toys to our yearly collection.

At all of our COLE HARDWARE locations, we carry a variety of Green Toys, including race cars, rockets, airplanes, and seaplanes. The toys range in price from \$4.99 to \$29.99. Come check them out for this special event and stock up for your own holiday gift giving needs as well. We will be collecting new, unwrapped toys through December 20.

Drop off any new, unwrapped toy in Santa's bin at any of our stores!

SMALL BUSINESS SATURDAY
 NOVEMBER 26

Shop local on Small Business Saturday and every day! Locally owned businesses reinvest in our local economy at a 60% higher rate than chain and Internet retailers. They support other local business professionals and retailers. Indeed, COLE HARDWARE's accountant, attorneys, benefit providers, and insurance broker are all locally owned businesses. And whether it is for store supplies or products needed to service our customers, a large amount of our product sourcing is also from locally owned businesses. Chain and Internet retailers send these types of purchases back to their home cities or elsewhere in the country.

A 10% shift in consumer spending, from chains and Internet retailers to favorite locally owned businesses, will create 1,300 new jobs and over \$190 million dollars in increased economic output in San Francisco alone. Imagine if that were multiplied across the Bay Area! Consumers don't need to spend more—just differently—in order to provide this benefit.

All of our stores will be participating in Small Business Saturday!
